

Kilve residential 2022

We strongly believe that all children should benefit from a residential experience at least once before moving onto secondary education. These visits bring numerous benefits to each child, some of which can only be discovered outside of a classroom. We believe this residential ensures the HEPS curriculum is a broad and balanced offer.

This is the first time we have offered a Year 4 residential. We would like to understand the views of parents and carers so we are able to make improvements where necessary and maintain positive elements.

The timing of the residential was good.

Residential visits can be costly. Considering the length of stay, location, variety and number of activities, this residential was good value for money.

- These trips are SO important to ensure that children receive a good balance of enrichment and academics at school. They will have created memories for life, built confidence, developed different friendships and learnt that being away from home is OK. Im so grateful that Alfie had this opportunity - thank you!
- * favourite bit was the muddy bog.
- I think having it Wednesday to Friday is perfect as the weekend to recover was well needed...
