Safeguarding and support – Meningitis

Meningitis can affect anyone and can be very serious if not treated quickly. There are vaccinations available that offer some protection. Symptoms of meningitis can develop suddenly, appear in any order and you do not always get all the following symptoms: a high temperature, being sick, headache, a rash that does not fade when a glass is rolled over it, stiff neck, dislike of bright lights, drowsiness or seizures.

Online Safety

Please look at the NSPCC Positively Online page for information on how to support your child's online wellbeing.

Science poster competition

All children are encouraged to design and create a poster at home based on this year's theme of '**change and adapt**'. Posters should be as creative as possible and must be 2D. For last year's winners, please see the British Science Week website at www.britishscienceweek.org. Entries must be submitted by **Monday 24th March**.
